

Are You Prepared for the upcoming Winter Weather Flying Season?

As winter approaches again, it's time to prepare yourself and your aircraft for safe winter flying. In this highly informative and interactive session, we will look at the elements that make winter flying uniquely different.

We will discuss how to prepare for, and conduct, safe winter operations. Special attention will be given to avoiding loss of control while in-flight.

This has been one of the most significant causes of fatal aircraft accidents for many years. Please come prepared to share your experience and lessons learned with your fellow pilots. Click on the link below and register TODAY!!

Directions: Please preregister. Please call 610 595-1500240 by 3PM the day of the event if weather is inclement for any changes.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
